CHIMAERA*

Raphael Marco Oliveira Carneiro**

*I felt I could almost see, or at least
now was aware of, the skeleton within.*
(Michael Ondaatje)

Once I dreamt of a world inhabited by skeletons.
No flesh, no blood – a World of Bones –
No need for languages there would be,
for people would look straight
into each other's skulls' darkness.
No need for mirrors there would be.
People would need only be –
Nothing more.
